PROFESSIONAL SUMMARY

Computer Science student and Software Developer with hands-on experience building scalable web applications and secure systems using Django, Node.js, and modern frontend technologies. Proven ability to design and implement real-world solutions, with leadership experience guiding 50+ students in web development. Strong focus on performance, security, and user-centered design.

TECHNICAL SKILLS

Languages: Python, JavaScript, PHP
Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap
Backend: Django, Node.js, Express
Databases: MySQL, SUPABASE, MONGODB
Tools & Platforms: Git, GitHub, Vercel, Netlify, VS Code
Core Concepts: REST APIs, System Design, Database Design, Responsive UI, Debugging

---

PROJECT EXPERIENCE

EduBursary – Scholarship & Bursary Platform

GitHub **https://github.com/Fabby24/Edu-Bursary**
Tech: Django, Python

- Designed and developed a centralized platform connecting students to verified bursaries and scholarships

- Implemented secure authentication and structured relational database models
- Built scalable backend architecture using Django
- Led system design and development planning

Secure Lab WiFi Access Control System (Collaborative Project)

Tech: React, Tailwind CSS, Supabase, Networking Concepts, APIs

🔗 GitHub **https://github.com/Fabby24/karatina-wifi-secure**

- Collaborated in a team of 4 developers to build a system that detects and manages devices connected to a WiFi network
- Developed a responsive frontend using React and Tailwind CSS for real-time monitoring and user interaction
- Implemented backend logic with Supabase for device tracking, data storage, and event handling
- Integrated automated SMS/API alerts to notify administrators of new or unauthorized device connections
- Enhanced network security by enabling real-time visibility and faster response to unauthorized access

🔗 **Live Demo https://karatina-wifi-secure.vercel.app/**

DJ Booking & Portfolio Platform (Beats & Bookings)

Tech: JavaScript, Tailwind CSS, Python

🔗 GitHub https://github.com/Fabby24/djmellow-Platform

- Developed a full-stack portfolio platform for a professional DJ with booking functionality
- Integrated high-performance audio features and responsive UI design
- Built backend form handling system for secure client inquiries
- Improved user engagement through mobile-first design approach

---

LEADERSHIP & EXPERIENCE

Web Development Community Lead

Innovation Club, Karatina University | Oct 2025 – Present

- Led and mentored 50+ students from basic HTML to advanced JavaScript frameworks
- Coordinated development of web solutions for campus events
- Improved student engagement through structured learning and project-based approach

---

Freelance Web Developer

- Delivered web solutions for local clients focusing on performance and usability
- Created System Requirements Specifications (SRS) to align technical solutions with business needs
- Built responsive and SEO-friendly web applications

EDUCATION

Bachelor of Science in Computer Science
Karatina University (2023 – 2027)

Relevant Coursework:
Data Structures, Algorithms, Database Systems, Software Engineering

---

ADDITIONAL EXPERIENCE

- Hackathon Participant – Dedan Kimathi University
- Collaborated in cross-functional teams to build solutions under tight deadlines

KEY STRENGTHS

- Full-stack development with real-world project experience
- Strong problem-solving and system design skills
- Leadership and mentorship in technical environments
- Focus on building secure, scalable applications
